

## Mobi-Lens Wide Angle & Macro Lens (2 in 1)

### Wide Angle

1. Pull off Mobi-Lens protective cap.  
(Mobi-Lens protective caps are **NOT** twist-off)
2. Remove secure lens backing.  
(Do not discard lens backing as it protects the Mobi-Lens when it is not in use)
3. Position Wide Angle Mobi-Lens with your devices camera eye, making sure that Mobi-Lens is aligned & centered with the camera eye.
4. Focus on object & snap photo.

### Macro

5. Gently unscrew the Wide Angle Mobi-Lens counterclockwise to reveal the Mobi-Lens Macro Lens.
6. Position Macro Mobi-Lens with your devices camera eye, making sure that it is aligned & centered.
7. Focus on object & snap photo.
8. Enjoy!

## Mobi-Lens Fisheye Lens

1. Pull off Mobi-Lens protective cap.  
(Mobi-Lens protective caps are **NOT** twist-off)
2. Remove secure lens backing.  
(Do not discard lens backing as it protects the Mobi-Lens when it is not in use)
3. Position Fisheye Mobi-Lens with your devices camera eye, making sure that Mobi-Lens is aligned & centered with the camera eye.
4. Focus on object & snap photo.
5. Enjoy!

Fisheye Mobi-Lens does **NOT** twist off  
**\*Do not twist off Fisheye Mobi-Lens\***  
(Doing so will damage or break the lens)
